

For almost 70 years, DOK Leipzig has been screening artistic documentaries and animated films from all over the world. Its programme is shaped by the festival's core values: peace, human dignity, diversity and inclusiveness. The films and experimental events convey themes of social and political relevance through the medium of art. Alongside screenings of as many as 200 short and feature-length films, the programming includes panel and audience discussions, masterclasses and the extended reality exhibition DOK Neuland. Additional events are organised throughout the year in cooperation with partners from Germany and abroad.

DOK Neuland is the exhibition platform for XR works. Every year we invite our audience to discover new works by international artists. We show VR and AR experiences, 360° films, games, interactive installations and more. With each exhibition, we discover new technologies, new perspectives and new approaches to filmmaking.
