

For almost 70 years, DOK Leipzig has been screening artistic documentaries and animated films from all over the world. Its programme is shaped by the festival's core values: peace, human dignity, diversity and inclusiveness. The films and events convey themes of social and political relevance through the medium of art. Alongside screenings of as many as 200 short and feature-length films, the programming includes panel and audience discussions, masterclasses and the extended reality exhibition DOK Neuland. Additional events are organised throughout the year in cooperation with partners from Germany and abroad.

DOK Industry is where the international documentary, animated film and XR industry meets at DOK Leipzig. Every year, some 2,000 industry representatives meet here to discuss new works and latest developments. With a slate of programmes and events, DOK Industry fosters the creation and circulation of documentary film projects from initial concept to distribution.
