2026

About SeedBed Lab - Documentary Editing for Resilience

SeedBed Lab - Documentary Editing for Resilience is a capacity-building project for emerging documentary editors and directors from Ukraine, Moldova, Georgia, Poland, and the Belarusian diaspora. The project was initiated by moredox gUG (Germany), Komos Foundation (Poland), Indie Media Polis (Ukraine) and ALT Film (Moldova). Each organisation contributes local expertise, professional networks and resources to the collaboration. The lab is part of a wider initiative among partners from eight Central-Eastern European countries.
